

Key Features/Benefits

Large, Full-Color Screen – displays HTML documents in multiple fonts

Targeted Cross-Marketing – ads, messages, and special offers can be displayed on-screen at any time during the signing process to help capture additional business

On-Screen Keyboard and PIN-Pad – allows input of vital customer information such as user ID, phone number, or email address

On-Screen Surveys – can be conducted to obtain valuable customer feedback

Scrollable Content – enables users to read through instructions, disclaimers, affirmation text, and more to ensure they make informed decisions before accepting or esigning

Easy Opt-In – selectable options, check boxes, response buttons, etc. make it easy for customers to follow the on-screen process and opt-in to choices presented

IntegriSign Desktop – esignature software comes bundled with ePad LS (may be upgraded to IntegriSign Pro). Once ePad LS is installed you're ready to esign Microsoft Word, Excel or Adobe PDF documents!

The ePad LS is a full-color LCD, multi-functional electronic signature capture device ideal for customer-facing applications where full disclosure, data capture, and cross-selling is important.

You can deploy ePad LS enterprise-wide in order to leverage your desktop real estate with a multi-functional device that eliminates the need for numerous PIN-pads and keyboards.

Cross-Sell Effectively: Present Targeted Messages

At any time during the signing process — before, during, or after — present full-color, targeted ads and special offers that are relevant to your customers. Capture additional business by having customers press "Accept" to immediately complete the transaction.

Obtain Essential Data: Maximize PIN-Pad & Keyboard

Gather important customer information with the multi-functional capabilities of the ePad LS. Conduct on-the-spot customer surveys to obtain valuable feedback. Capture user ID, phone numbers, and e-mail addresses via the new on-screen PIN-pad and keyboard features. Eliminate the need for multiple devices to collect essential data.

Display Affirmation Text: Ensure eSigning Intent

Ensure that customers are provided the information they need to make informed decisions before they accept or esign. Provide scrollable content that enables customers to read through instructions, disclaimers, affirmation text, and more. Make it easy for customers to opt-in to choices presented – with check boxes, selectable options, response buttons, etc.
