

High Sensitivity Sulfur Dioxide (SO₂) Sensor

110-64x

Interlink Electronics Screen Printed Electrochemical sensor (SPEC Sensor™) revolutionizes the current state of the art, enabling new applications in consumer, medical and industrial safety. Interlink Electronics offer the performance of the best quality electrochemical sensors at a fraction of the price. The 110-64x family High Sensitivity Sulfur Dioxide sensors are small and low-profile, facilitating easy integration into wireless, portable, and other IoT solutions. These sensors are ideal for health, food, environmental, industrial, and residential monitoring, because of their high performance, low cost, and small size. IE'S High Sensitivity Sulfur Dioxide Sensor are available in three packages (110-640, 110-641, 110-642).
